Cooperative Learning Strategy – “Quiz Quiz Trade”

All students are given a card or slip of paper with the question (or vocabulary word) on one side and the answer (or definition) on the other side.

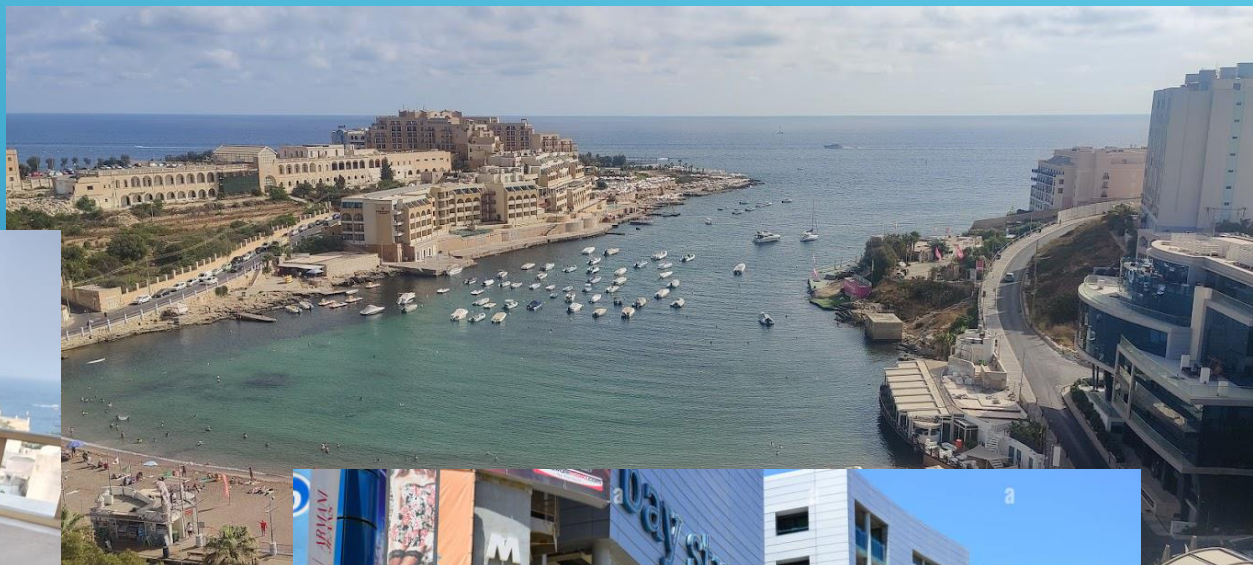

1. All students stand up and pair up. (Use ‘Stand up, Hand up, Pair up’ structure)
2. One student reads the question to the other student. The other student answers.
3. The first student corrects, if necessary, then gives a praise statement (whether the answer is right or wrong).
4. The students switch roles.
5. When both questions have been given, the students trade questions, then put their hand up to find a new partner. (Use ‘Stand up, Hand up, Pair up’ structure)
6. They look around for other students with their hands up, and pair up with new partners.
